Those who learn German as a foreign language - and even native speakers - are often unsure which preposition should be used with a particular word (e.g. "Stolz auf" oder?). "Abneigung vor" gegen?). Such collocations tend to be poorly covered in German dictionaries. This dictionary is the first to provide comprehensive coverage of German words in connection with their possible prepositions. It is designed for practical use and includes a large number of examples. It is a descriptive, and not a prescriptive, dictionary - a dictionary showing learners how to produce collocations and showing teachers how to correct them.
